Vanessa

A nice flow of lines, a variety of colors and exclusive design make the Vanessa series a true pearl of Botticelli TM. You will find a harmonious combination of colors, functional filling, and outstanding design in it.

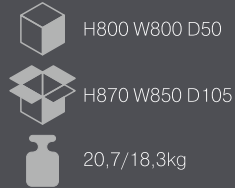

You can complete this collection with a mirror or a mirror cabinet, choose a 90, 110, or 120 sizes of a vanity unit with an artificial stone washbasin and finish the bathroom design with a multipurpose storage unit – when turned 180° it may become right or left.

Velluto

Soft velvet to the touch, rounded in its lines and calm in color, the Velluto series will make any bathroom special. It differs with an original coating, which creates the effect of softness and comfort in the room.

This collection is covered with enamels, followed by application of soft decorative coating – “Tactus”, which reminds rubber to the touch. Furniture is completed with a mirror or mirror cabinet, as well as a multipurpose storage unit – when turned 180° it may become right or left.

Rimini

The Rimini series will please you with an excellent choice of sizes, textures, and colors. With furniture of this collection, you can arrange the bathroom space both in colorful colors and in the calm shades of natural veneer.

This collection is characterized by many variations of sizes and textures: you can choose 80, 100, and 130 vanity units with high gloss paint or a matte veneer, a mirror of a suitable size and design, and also finish the bathroom design with a storage unit. The series is completed by artificial stone washbasin.

Treviso

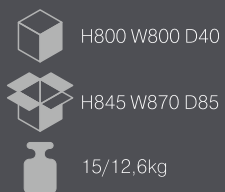

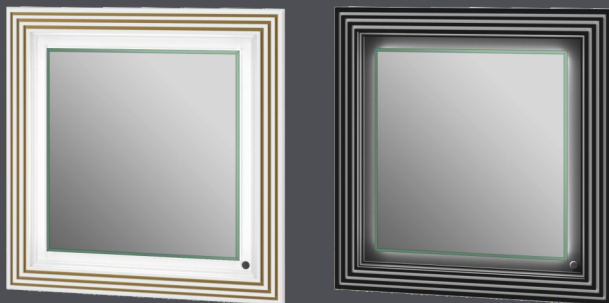

The Treviso series is an aristocratic classic in modern design. With the furniture of this collection, you will add richness and luxury to the bathroom, give it uniqueness and sophistication. As you know, the classic is always popular, so the design of your bathroom will be relevant for many years.

Furniture of this collection is characterized by restraint of colors, which is diluted with gold or silver frames, as well as a nice flow of lines and contours. The collection is completed with an artificial stone washbasin, as well as a right storage unit.

Toscana

White, high gloss painted and non-standard functional features are the formula for the success of the Toscana series. Drawers with a system of full opening will allow you to optimally use all space in vanity unit, and hidden self-closing guides will provide comfortable exploitation.

The collection is completed with a mirror cabinet with an LED-light, as well as 70 and 170 sizes storage units. The inner space of it is divided by shelves, which allow you to fill up the available space as much as possible. The collection is completed with an artificial stone washbasin, and the product is high gloss painted outwardly.

niche shelf for cosmetic accessories

double washbasin made of artificial stone

Ds-120

one drawer is mounted on guides with self-closing function

Domus

A double washbasin made of artificial stone, trendy decor in the Natural Oak color and outstanding functionality make the Domus series a real work of art among the bathroom furniture of Botticelli TM.

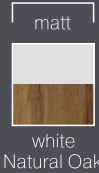

In this series you will be surprised by the great practicality of the vanity unit and mirror cabinet in the size of 120 cm, which have in their design a special shelf-niche for holding various accessories and household items.

Also the vanity unit has in its design one capacious drawer which is mounted on guides with self-closing function, and the mirror cabinet has three compartments which, in its turn, are separated by glass shelves.

This series is a real combination of beauty and functionality for the bathroom.

collection SEQUETTO

Sequetto

Lightness and weightlessness, glossy surfaces and smooth lines make a Sequetto series a successful solution for any bathroom. It is suitable for both calm and colorful design, and will surprise you with maximum practicality and functionality.

One of the features of the series is the lack of handles: their function is performed by special notches on front parts. The collection is completed with a mirror cabinet with a built-in LED-lighting, and also with two storage units: bigger and smaller one. The series is completed with an artificial stone washbasin.

About us

"Botticelli" TM is a Ukrainian manufacturer of bathroom furniture of premium segment. We started our activity in 2008 on the basis of one of the leading manufacturers of bathrooms furniture in Eastern Europe – "Juventa" company, and from 2014 we are an independent factory. The furniture of "Botticelli" TM is quality, elegance, practicality, functionality. The art of Sandro Botticelli inspires us every day to create bathroom furniture: lightness, line simplicity, gracefulness and elegance of the artist's works are reflected in our collections.

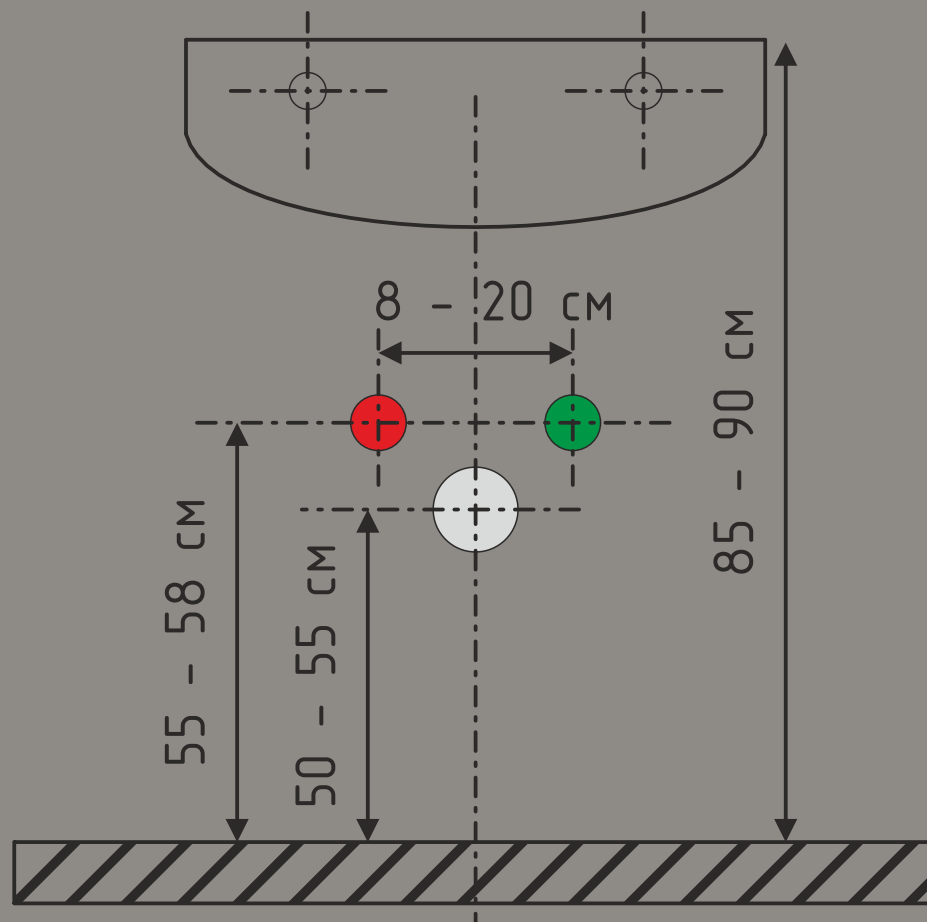

Our bathroom furniture will pleasantly surprise you, because:

1. It has an original and unique design. We are always one step ahead and therefore we embody new fashion trends in bathroom furniture.
2. It is made both manually and on modern equipment. During the complete technological cycle of production of bathroom furniture, we use the latest technologies, namely high-precision equipment and digital software control.
3. Materials used in the manufacture of furniture are supplied by the best manufacturers of Ukraine and Europe. This fact ensures its long and reliable operation.
4. The most up-to-date production in Eastern Europe meets the requirements of quality and safety.
5. Our products are comfortable and functional. We think over the smallest details: practical internal separation of boxes and other functional features.
6. We provide a 24-month guarantee and after-sales service for all bathroom furniture.

We produce high-quality bathroom furniture and day by day prove the customers that high-quality furniture may be of Ukrainian production. In our catalog you will find over 140 items of products in the range. "Botticelli" TM is bathroom furniture for those who choose quality and elegance.

All our "Botticelli" TM furniture meets the requirements of international FSC standards. The design of vanity units is harmonized in accordance with the European norms of water supply and drainage. The size of the vanity unit is indicated taking into account the sizes of washbasins. The size of the mirrors and mirror cabinets is indicated taking into account the sizes of lamps. Weight and sizes of products/packed furniture may slightly differ from provided.

Furniture of "Botticelli" TM is delivered fully assembled with fasteners.
Colors of illustrations in catalog may slightly differ from the actual color of the product.
Not all technical requirements of installation have been observed in photos.
Decorative elements and faucets are not objects of sale.
We keep the right to make changes without prior notifications.
